New AG International Annual - Leading specialty fertilizer conference in Europe

[Berlin](#) (agrar-PR) - 9-11 April 2024, Berlin, Germany

The leading specialty fertilizer conference in Europe. A global event that brings together the specialty fertilizer sector and unites the entire plant nutrition community. This premier event celebrates the forefront of knowledge and innovation in the field of Plant Nutrition, providing a unique platform where cutting-edge research and commercial applications converge.

Join us now to be part of an international conference and exhibition that brings together the speciality fertilizer sector

- 300+ plant nutrition experts gather – spanning a range of profiles including scientists, R&D , marketing, business development and regulatory affairs

- An international audience – our events are always truly global with attendees from Asia, North America, Latin America, Europe and Australia

- NEW content – for 2024 we have a brand new speaker line up including new companies who have never joined us before!

- Connect with local distributors – with a special distributor rate (contact Naomi Brooker for information) we are dedicated to bringing you more meetings with local distributors than ever before!

- Unrivalled content including the latest updates from Notified Bodies and insights into the Fertilizer Regulation

- NEW workshops including an exclusive seminar on the Geopolitics of Agribusiness and Food Security – providing you with critical guidance on how to manage in uncertain times
And lots more!

With 2 full conference days dedicated to plant nutrition initiatives, the speakers on the New AG International Annual agenda represent today's leading experts working across the spectrum of Plant Nutrition, including Specialty Fertilizer, Slow Controlled Release & Stabilized Fertilizers and Biostimulant Developments! Take a look at the agenda to see for yourself...
