ASIA POOL & SPA EXPO 2023

[Guangzhou](#) (agrar-PR) - Date: May 10th-11th (9:00-17:00) May 12th (9:00-13:00)

Before the pandemic, the show every year gathers brands and visitors from Over 50 Countries and Regions. With China reopening its borders in 2023, the show will be restored to its pre-pandemic level of international attendance in no time!

With the rapid development of leisure tourism in China, hotels with a single style can no longer meet the diverse needs of the public. The comprehensive upgrade of B&B is crucial, among which the matching pool is the key.

The Chinese government actively encourages the development of fitness swimming training courses for teenagers. Thousands of prefabricated pools are being built for primary and middle schools nationwide.

Deployed by the the State Council, Outline for the Healthy China 2030 Initiative is aiming at achieving a total scale of more than 16 trillion yuan in the health service industry by 2030. Infrared sauna physiotherapy room is a new industry formed by the application of infrared technology in the medical field. In recent years, it has been widely used in clinical diagnosis and health care in China.
